PENTAIR POOL

AUTOMATION

Updated September 2025

AUTOMATION DONE RIGHT.

IntelliCenter® Pool Control System is the most versatile Pentair automation system, delivering better-than-ever technology you can count on. Easily expandable, this system is now powered by AWS® technology to help improve connectivity. This automation system is here to make your job easier than ever.

INTUITIVE TOUCHSCREEN FOR EASIER INSTALLATION AND SETUP

Spend less time in the backyard thanks to quicker, easier, step-by-step instructions and Over-the-Air (OTA) updates.

MORE CONSISTENT CONNECTIONS

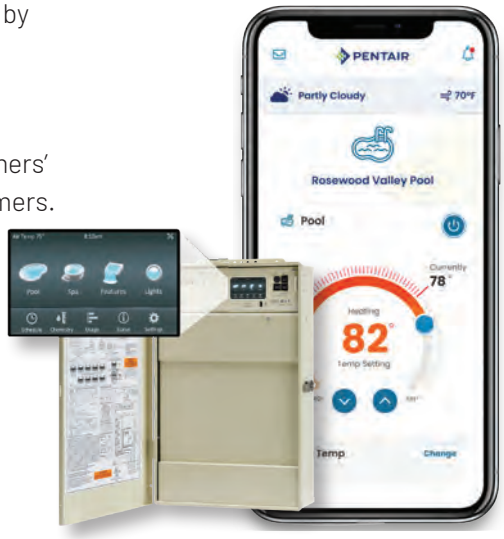
Say goodbye to late-night service calls with a system powered by AWS technology for increased reliability and stability.

PROACTIVE REMOTE MONITORING

Offer upgraded service with a birds-eye view of all your customers' systems and sort your dashboard to better service your customers.

DEDICATED SUPPORT

Access our expert automation specialists when you need assistance.



IntelliCenter Lite System

Lighter where it counts.

- Offers up to five relays, i5P or i5PS bundle options
- Can work with existing breaker panel
- Smaller enclosure, designed with electricians in mind
- Wi-Fi antenna included

IntelliCenter Upgrade Kit for EasyTouch®/IntelliTouch®

Bringing the latest automation technology to current systems.

- Smart upgrade for older pool automation systems
- Brings EasyTouch or IntelliTouch Control System up to date with modern features of the IntelliCenter Control System
- Expandable to accommodate new equipment add-ons and product upgrades

SEE PAGE 323 FOR REPLACEMENT PARTS

INTELLICENTER®

CONTROL SYSTEM FOR POOLS AND SPAS

TRADEGRADE

Featured Highlights

- Easy to program, with the Setup Wizard for step-by-step, on screen instructions
- Color touchscreen interface displays intuitive instructions in clear text and rich colors
- Convenient control from inside and outside the home via outdoor and indoor control panels and remotes
- Remote control and monitoring from anywhere, anytime with the Pentair Pool app and Pentair Pro app

The IntelliCenter Pool Control System is the most versatile Pentair automation system, delivering better-than-ever technology you can count on. Easily expandable, this system is now powered by AWS® cloud technology for improved stability, connectivity, scheduling and reliable, centralized control for multiple pool devices, from water features to lights to pumps. This system makes pool life as easy as it should be.

INTELLICENTER® LITE

SYSTEM

INTELLICENTER LITE
SYSTEM

Featured Highlights

- Supports and includes five relays
- Pool and Pool/Spa bundle options available
- Wi-Fi antenna included
- Get the functionality of the flagship IntelliCenter Pool Control System including remote monitoring and color touchscren
- Optional 900 MHz High Powered Wireless for increased range and more reliable connection where Wi-Fi may be limited, sold separately

The IntelliCenter Lite system features a compact, breakerless Power Center for installations where a breaker panel is already in place. This system includes a free Wi-Fi antenna for easy connection to the homeowners router, enabling everything the IntelliCenter system has to offer including easy control via the Pentair Home app, and remote monitoring and control for pros via the Pentair Pro app.

INTELLICONNECT®

CONTROL AND MONITORING SYSTEM

TRADEGRADE

IntelliConnect Control and Monitoring System

Featured Highlights

- External antenna offers an average of more than 4.9 times greater reception distance than the original IntelliConnect* system for improved connectivity
- Enables smart connections to any of these Pentair devices: IntelliFlo® or IntelliPro® Pumps, IntelliChlor® or iChlor® Salt Chlorine Generators
- Allows for two relay connections to equipment like pool or landscape lights, pool cleaner booster pumps, or single-speed pumps including competitive models
- Provides real-time information on the status of the filtration system and other pool equipment
- Easily sets up and schedules automatic operation of connected equipment

*Results stated with Ericsson model for city deployment with antenna/unit installed at 1.8m (6ft).

IntelliConnect system allows pool owners to monitor and control various devices, including pumps, lights, salt chlorine generators, and more, all through the Pentair Pool app for easy, convenient control from anywhere. IntelliConnect system provides real-time information on the status of the filtration system and other pool equipment. Pool owners can command the system to work a little harder when extra filtration is needed.

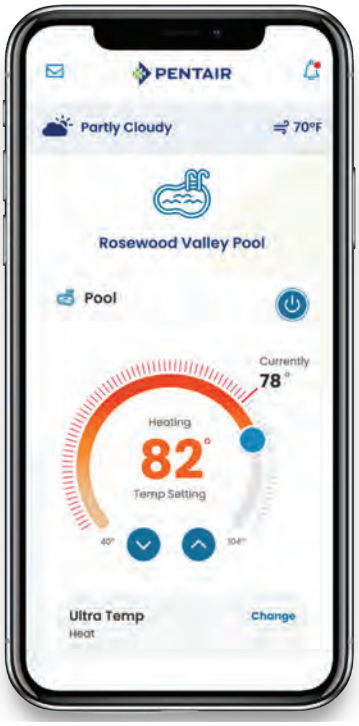
GLOSSARY

Term	Description
Bluetooth® Wireless Technology	Local connection to device using the Bluetooth option.
Control	Ability to make adjustments, as needed, to update schedules or take immediate action.
Monitor	Check device status.
Program	Configure settings and create schedules.
Remote Monitoring	Visibility to a customer's pool device status. Ability to work with pool owner off-site. Future state will include capability to control remotely.
Set Up	Connect the pool device to the app and create or add to account.
Wi-Fi Provisioning	Connect device to router for wireless internet connection.



[1] Bluetooth can deliver a quick, direct connection to the device. Internet or cellular connection are required to open and use the Pro or Pool app for Bluetooth or Wi-Fi connectivity.

Wi-Fi Connection Best Practices: Continuous Wi-Fi connection to connected devices will support software updates and ongoing feature additions, even if it is connected to an automation system.

SOLARTOUCH®

SOLAR CONTROL SYSTEM

Featured Highlights

- Digital calibration of water and solar temperature in one degree increments
- Integrates with **IntelliFlo3® and IntelliPro3® Variable Speed and Flow Pumps**
- Set pool temperatures and solar temperature differentials with the touch of a button
- Solar valve automatically drains the solar collectors when pump shuts off
- Durable PTFE Seal
- LCD display
- LED indicator lights confirm SolarTouch automation is working. Service indicator LED shows when attention is required.
- Motorized valve actuator has steel gears, low-voltage motor: service switch for flow direction
- Weatherproof composite enclosure
- Nocturnal cooling and recirculation freeze protection with filter-pump timer override
- 3-year warranty

TRADEGRADE

SolarTouch System

The SolarTouch Solar Control System offers full digital control for precise, efficient, swimming pool heating. The digital thermostat is set with the touch of a button and will monitor the temperature of the pool water and solar collectors. SolarTouch Control System integrates with IntelliFlo3 and IntelliPro3 VSF pumps.

INTELLIVALVE®

VALVE ACTUATOR

TRADEGRADE

IntelliValve Valve Actuator

The IntelliValve Valve Actuator lets you set just the right flow for water features. Its intuitive controls and LED position indicator lights make operation fast and push-button easy. Thirteen (13) bright LEDs provide a clear visual indication of the valve position from fully open to fully closed and everywhere in between. Simply use the left/right and Save buttons to set the flow rate in just seconds.

Featured Highlights

- Thirteen (13) LEDs give precise, easy-to-read indication of valve position
- Built-in interface allows quick and simple set-up of water flow
- Sleek, minimalist design is compact and fits easily within any equipment pad
- Sealed, maintenance-free design is weatherproofed for reliability
- Suitable for 1.5", 2", 2.5" and 3" valve sizes.
- 24-volt operation for use with standard automation systems, 750 mA max amp draw
- Adjustable 3.75-degree increments within the maximum 180-degree swing
