

AUTO-ADJUSTING FOR OPTIMAL CIRCULATION AND PERFORMANCE

Variable-Speed Directional Return Fittings

DESIGNED FOR VARIABLE-SPEED PUMPS TO OPTIMIZE CIRCULATION AT ANY FLOW RATE

CMP® Variable-Speed Directional Return Fittings adjust to changing pump flow rates, improving circulation and saving energy.

VARIABLE-SPEED DESIGN

Designed for variable-speed pumps for efficient low- and high-flow performance

NEW Variable-Speed Directional Return Fitting

Focused Water Jetting at Low Flow

VS.

Standard Return

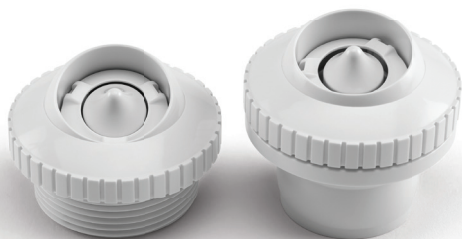

Weaker Jetting at Low Flow

Shown: Standard 3/4" Directional Return

INSTALLATION VERSATILITY

Available in 2 connection types and 7 color options

Threaded

Self-Aligning

SPECIFICATIONS

Optimized Flow	Designed for variable-speed pool pumps
Orifice Size	3/8" to 3/4" (Variable)
Adjustable Position	Directional flow return with auto-adjusting eyeball
Connection Types	1) Threaded 1.5" MIP or 2) Self-Aligning press-in 1.5" SCH 40 pipe
Color Options	7 available color options

Connection Type	White	Gray	Dark Gray	Tan	Black	Light Blue	Dark Blue
Threaded 1.5" MIP	25552-600-000	25552-601-000	25552-607-000	25552-639-000	25552-604-000	25552-659-000	25552-669-000
Self-Aligning Fits Inside 1.5" Sch 40	25554-600-000	25554-601-000	25554-607-000	25554-639-000	25554-604-000	25554-659-000	25554-669-000
