SPEEDSET™ PLUS VS PUMP CONTROLLER

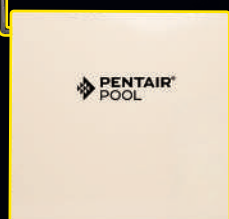

THE PUMP CONTROLLER PROS TRUST WORKS WITH JANDY® OR PENTAIR® AUTOMATION

The Jandy SpeedSet™ Plus Controller with FlyWheel™ Navigation offers intuitive operation to easily set up, program and operate Jandy variable-speed pumps — even if your customer has Pentair® automation.

Add More Jandy Pool Pads to Your Route Without a System Overhaul or Rewiring

SpeedSet Plus is compatible with these Pentair® Automation Systems:*

- IntelliCenter® & IntelliCenter Lite
- EasyTouch® PL4 & PSL4
- IntelliTouch®

Automation Pass-Through Wiring

Provides easy-access connection point for all Jandy automation systems with local automation bypass control capability during pool servicing.

*Flow control is NOT supported.

EASIEST TO MASTER

Programming a pump has never been so fast and easy. Engineered for simple operation, you'll master SpeedSet™ Plus with FlyWheel™ Navigation in minutes, making it a cinch to quickly set up pump schedules.

“ I programmed my first one in 5 minutes ”

- Michael E.

Large Display

Large, vibrant, easy-to-read LCD screen

AUTO Mode

Can run up to 10 fully customizable daily schedules

STOP for Service

Immediately stop the pump from running or set desired timed stop duration

Navigation Guide

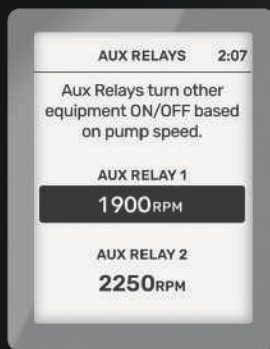

Requires little to no training to quickly master

FlyWheel Navigation

Simple “turn and press” dial for fast and easy programming

More Customization

A dedicated CLEAN mode plus 8 additional timed runs provide even more customization

Auxiliary Relay Programming

Program Jandy® VS Pump Auxiliary Relay on/off speeds for customized control of other equipment such as a salt chlorinator and booster pump.*

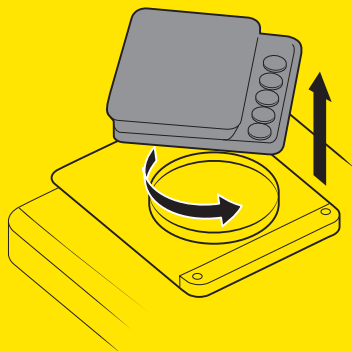

*Available on all Jandy 2-Aux Relay fitted pumps

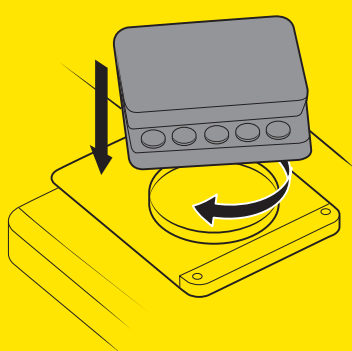

Multidirectional, Tool-Free Mounting

Four different positions for easy access — just turn and lift to reposition

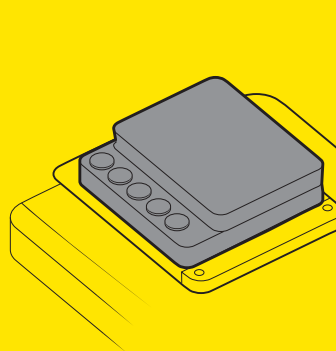

1 Rotate Counter-Clockwise to Remove

2 Reposition to Desired Location

3 Rotate Clockwise to Secure

Preinstalled on Jandy VS Pumps

Jandy® SpeedSet™ Plus VS Pump Controller with FlyWheel™ Navigation comes preinstalled for fast, simple set-up and intuitive operation
