

TOSOT Home Assistant Connection Guide

Follow these steps to connect your TOSOT device to Home Assistant via the Gree Climate integration.

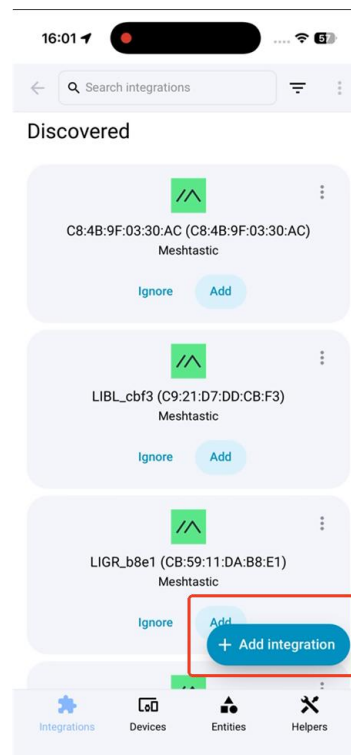

1

Tap “Devices & services” in the settings interface.

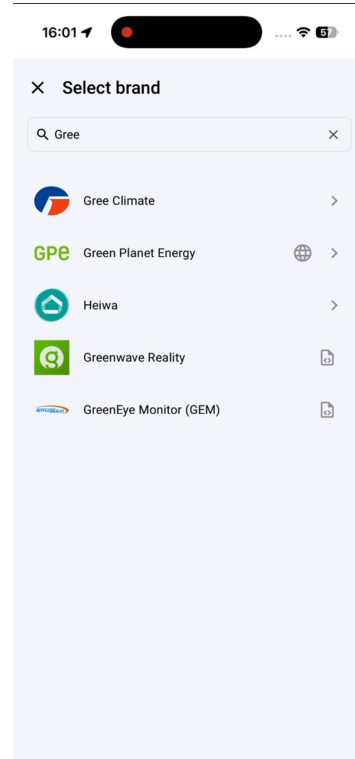

2

Press “Add integration” .

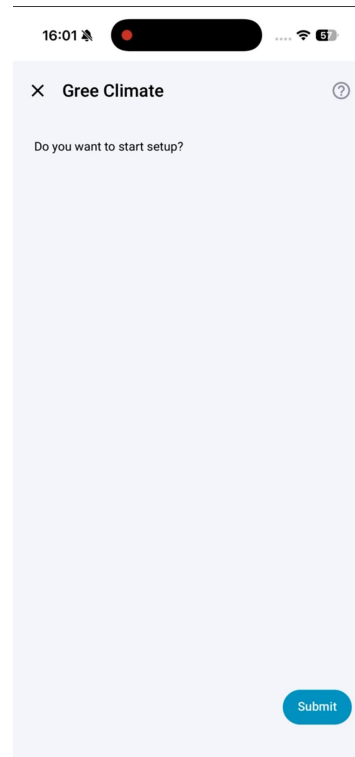

3

Search and Select “Gree climate” (TOSOT developed by GREE) .

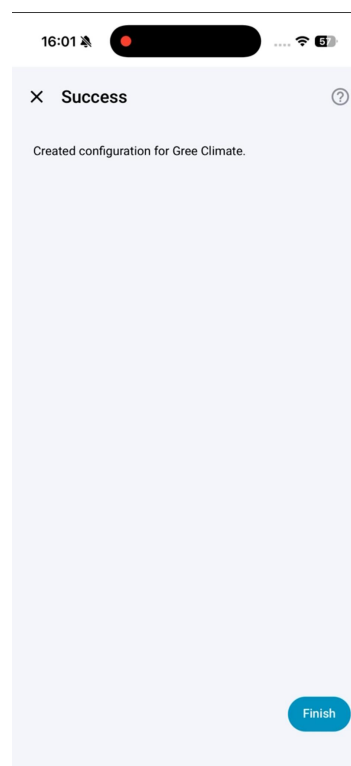

4

Submit your setting.

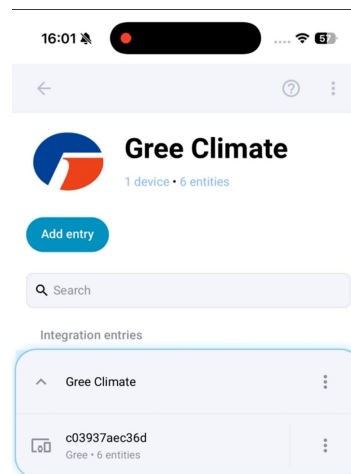

5

And finish your setup.

6

You can now view your connected devices via Gree climate.
